台灣市場沒有空氣清淨機標章的認證機制，導致消費者在選購空氣清淨機時欠缺參考標準，台灣空氣品質健康安全協會（空安會）日前舉辦空氣清淨機標章認證，首利實業（1471）旗下空氣清淨機品牌「HYPURE艾璞而」獲頒台灣第一台奈米光觸媒空氣清淨機金級標章認證。

Global PC Market Overview

In the third quarter of 2023, the global shipment of personal computers totaled 65.6 million units, reflecting a 7% year-on-year decrease. Desktop computer shipments experienced an 8% decline to 13.5 million units.

The PC market encountered challenges due to the economic downturn, resulting in subdued consumer demand.

Concurrently, competition from devices such as smartphones, gaming consoles, and tablets impacted the demand for PC products.

The industry also faced issues related to inventory clearance efforts, and the anticipated end of support for Microsoft Windows 10 in 2025 is expected to further drive hardware demand. A gradual recovery is anticipated in 2024.

Outlooks

1. Expanding into the Esports market, continuously increasing the market share of our proprietary brand APEXGAMING in China and Taiwan, and strengthening local influence. Additionally, we aim to explore new customer sources overseas.
2. Enhancing the HYPURE brand to elevate the competitiveness of our proprietary HYPURE products in the air purifier market. Emphasizing exclusive patented technologies, bolstering online marketing efforts, expanding brand exposure, and increasing consumer awareness of the brand and its products. This includes actively seeking OEM/ODM collaboration opportunities to broaden product sales channels.
3. Actively engaging in the research and development of Esports and air purifier-related products, APEXGAMING is committed to continuous innovation and technological breakthroughs. The company aims to enhance product performance and efficiency, catering to the diverse needs of users.

Thank You !
